MORE CATTLE COMING

The American Meat Institute reports that consumers will have the largest supply of beef in our history in 1953, if producers continue to build up their cattle herds as they have during the first half of this year there was an eight percent cut in cow slaughter, as a direct result of the herd building program, yet producers were able to turn out five percent more cattle than during the comparable period last year by offering a larger volume of steers and heifers.

This is good news as the nation of hearty meat-eaters. Meat consumption has been tending upward and we eat much more of it, on a per capita basis, than any other nation with one or two exceptions, such as Australia. Even so, experts in nutrition believe that our consumption should be greater still. Science has proved that beef and the other meats contribute very greatly to our mental and physical health. They create strength and stamina. They are of major benefit in aiding recovery from a long list of diseases—including some for which meatless diets were once prescribed, until medical discoveries proved the fallacy of that.

From the viewpoint of farmer and rancher, meat is one of the most valuable of all crops. It's good to know that we'll have it in abundance.

HERALD
MAILBOX

This column is for Herald readers to express their opinion on questions of the day. They are not necessarily the opinions of this paper.

Jacksville—Dear Mr. Jones: I have read with much interest a clipping from your paper dated September 5, 1952, and while I do not mind a policy to take issue with any worthy newspaper, or even debate any material that appears in a policy paper, I wish to discuss with you this article.

I am a little surprised at the first three paragraphs of the article appearing in your paper and I can assure you that I am neither a bureaucrat nor have a pompous attitude nor have a position, and certainly did not "blow my top." For twenty years I have made every effort to conduct my personal and professional life in a manner becoming that of a public servant.

With reference to the derogatory remarks to the Glades, there were none intended. Your Florida State Board of Health has the responsibility of protecting the public's health all over the State. We have, for years, received many complaints of overflowing septic tanks in the Glades area, as well as many other sections of the State. It is our duty to advise people that where septic tanks do not work satisfactorily, the proper methods of sewage disposal should be provided. We have an agreement with federal and other mortgage-lending agencies.

Now this writer that the town home is no longer, "I mentioned we were going to repaint."

From where I sit... by Joe Marsh

No Longer Two Sides
to This Question!

Ever since those two family houses they have in some place with separate front doors and porches—(the by side) My sister was half of one and lives in it, near Philadelphia.

Nice little house, only five in it, painted half brown and the other family always painted them green. Behind the effect—but for years neither family ever thought of suggesting that they both decide on a common shade.

Now this writer that the town home is no longer, "I mentioned we were going to repaint."

she says, "And they said let's get a color we all like. So we did. A nice shade of gray for both sides." From where I sit, so often when there's a difference of opinion it's best to sit right down and work things out (like when our volunteer friend decided to serve both sides of the road. Don't let people "color" your opinion of your neighbor. He'll probably be quite as open-minded as you are.

Joe Marsh

THIS NARROW CORNER

By Mary Winne

We have been reading in the newspapers, (other people's newspapers, that is, we never have to read our own, only write it) about guerrilla tactics being launched into the Korean action. We are much excited about them, because we think it opens vast potentials and launches us personally into the revolution of war, and a concomitant revolution of mankind in general.

We do not agree with those who forebodingly whisper the destruction of entire cities by the publication method. Instead, we foresee a kind of warfare (in not too far distant days) when nobody will be killed at all. Opposing sides will launch attacks of robots against each other's armies, will fight from armchairs in observation towers, eyes will be glued to radar screens, fingers will press push-buttons, guided missiles will destroy one another harmlessly, and nobody will get hurt.

When this happens, armies will become educational institutions, designed to give every soldier the opportunity of riding in Pullman cars (there are many who otherwise never could, if they didn't join the army) and traveling on ocean-going vessels. They will visit foreign countries and leave their footprints in their banks. They will marry foreign men and women; for them, the world will be completely co-educational.

The ones who really want to kill somebody will be segregated out and they will be allowed to duel with whatever old-fashioned weapons they choose. This is very old-fashioned, anyway, and those who want to do it will be forbidden to use the brand-new publication and gets that will be restricted severely to physicians, and chemists, and nuclear scientists, and those who like to listen to Mozart or dig in the garden in their off-hours.

With all this development, plus the channeling of atomic energy, the peaceful progress the army could be the greatest university in the world. We like to think about this more so as it's a rainy day, and the newspaper has been put to bed, we think we'll go home to a hot water bottle, curl up with some good twentieth century books, and go on dreaming.

DR. GREY COMPLETE 13TH BROADCAST THIS WEEK

This week on the Baptist Hour Dr. J. D. Grey will complete 13 broadcasts on the theme of "Questions that Count." This is a rainy day, and the newspaper has been put to bed, we think we'll go home to a hot water bottle, curl up with some good twentieth century books, and go on dreaming.

NEGRO WOMAN STOPPED BY ATTEMPTED GETAWAY

Charged with reckless driving, causing an accident, driving without a driver's license, and attempting to flee the scene of an accident, a Negro woman, 1629 NW 6th Ave., Miami, will be tried in Municipal Court today.

According to police officer Irving Crabbe, the woman also was in possession of a 32 revolver when taken into custody Saturday night, after an attempted flight in a paroled automobile in which she had been a passenger.

Patrolman Crabbe recounts the following story: "Elle Blocker, passenger in an automobile belonging to Bash Fudge, also of 1629 NW 6th Ave., Miami, was with Fudge when he stopped for gasoline at the service station near the Dixiana Grill. Fudge had got out of the car to pay an attendant for the gasoline, when the woman suddenly slid into the driver's seat of the 1941 Chevrole, started the motor, stepped on the gas, and in trying to speed out of the driveway, rammed a parked automobile belonging to Avery Biss, proprietor of the Dixiana, knocking it about eight feet.

Without stopping, however, the woman sped along Main Street, only to be halted when the Chevrole suddenly stopped dead and Avery Biss, who had run after her, detained her until the police officer arrived at the scene.

As Officer Crabbe recalled, the woman slid from under the wheel and grabbed her purse, apparently trying to open it. Crabbe said after he extricated her from the car, he revealed the 32 revolver protruding from the purse.

All the charges in the book were thrown at the woman, who was released on \$200 bond to face trial tonight. Fudge was

released after investigation. Damage to the Avery Bass car, a 1951 Mercury Sedan, was estimated at \$85. Mrs. Biss, owner of the Mercury, said it was momentarily parked, described herself as "shaken but unharmed."

MRS. VAN HORN SPEAKS AT MIAMI MEETING OF GARDEN CLUB PRESIDENTS

Mrs. Harold E. Van Horn and Mrs. Iva L. Reid attended a meeting of Garden Club presidents of Dade County held at the Simpson Memorial Garden Center, Miami.

Mrs. Van Horn, Director of the Sixth District of Florida Federation of Garden Clubs, spoke on "Why Federation."

Mrs. Reid is publicly chairman for the Sixth District.

FIBER PRODUCTION

(Continued from Page One) led to the satisfaction of the Department that Kenaf fiber can be produced grading largely No. 1, entirely by mechanical decortication. However, to produce this high percentage No. 1 fiber, an economical loss occurs. USDA officials and graders agree, and are highly in favor of a complete mechanical process for final cleaning which adds little to the overall price but produces a high percentage of the two high grades—32 and 24 per pound fiber. This complete process follows a mechanical decortication which allows a much higher recovery of fiber than that which is mechanically decorticated.

Frequent samples from the Belle Glade production, or alternately "yes," "no," or "maybe," and chemists, engaged in a series of tests, found places, damn the bureaucrats, and go at it again, with enough encouraging success to make the idea seem feasible.

Despite the official request of the Munitions Board for the home operation, the Bureau of Equivalency Contract by CCC to purchase graded fiber, and the regulations apparently permitting leading agencies to assist substantially, not one cent of liability, or loss, was paid for the domestic kenaf project.

The energy displayed by most governmental employees dealing with kenaf is in searching for a possible absence of the specific thing to help. Of course there are some governmental employees whose motive is to prevent a blined day and night shift, with a weekly cash payroll of \$7,000 to \$8,000, and the local warehouses are stacked full.

Mr. Seichiro Kawasumi, just out of Georgia Tech and the son of the President of the largest textile mill in the South, is only a visitor this week with Dr. Allison at the Experimental Station. Mr. Kawasumi, as was his father, before, is willing to contract for millions of pounds of Glades grown ramie annually on a long term contract.

Jute interests haven't been too enthusiastic about kenaf as a substitute that is off-shore interests; the processing industry of the U. S. has added greatly and seems to be anxious to see the Florida effort succeed.

Jack Dempsey of Newport, as a Glades crop, has been the largest single producer of ramie fiber and is planning for a \$1,000,000-pound crop this season. American Kenaf has shipped, and is shipping this week, to Japan, more than 50,000 pounds of ramie fiber from its plantations at Hillsboro Plantation.

The current cutting is from new plantings which yield substantially more dry fiber at each cutting. Another cutting is expected to be ready during November.

Kruse Brothers have shipped ramie fiber to Japan this season. Ten plants, such as Newport and American Kenaf—and the community can support, and the

Kruse Brothers have shipped ramie fiber to Japan this season. Ten plants, such as Newport and American Kenaf—and the community can support, and the

world needs fiber from more than what plants—would produce \$10,000,000 to \$20,000,000 in income for the Glades during its normal off season from May to November.

The grocery stores, clothing and hardware stores, the tire shops, the filling stations, the shoe stores, a 1-d machinery folks, as well as the fuel distributors would benefit, when they normally don't expect much.

If the Glades can't get behind and push, coax or help as a whole, it may help the community by staying out of the way and allowing PROGRESS to GET AHEAD. Fibers are here to stay as a major crop.

Miss Lodes, and of the Baptist Church.

Close friends say that Mr. Schoepel had never been entirely well after an unsuccessful operation about a year ago. Mr. Schoepel was survived by his wife, Mrs. Mildred Schoepel, a daughter, Gay, and a son, Jimmy; all of Pahokee; by a brother, Eddy Schoepel, Belle Glade; his father, Frank C. Schoepel, Milwaukee; and two sisters, Mrs. Josephine Willie and Mrs. Mary Styrcek, also of Milwaukee.

Berry's Funeral Home, Pahokee, had charge of arrangements.

A FRUITFUL SUMMER FOR WILSON FAMILY

Mrs. Guy Wilson's sons, Guy, age 6, and Michael, 4, held many whispered conspiratorial conferences with their father this summer, and not long ago, Mrs. Wilson discovered why.

Earlier in the summer, on a garden plot behind their house at 643 5th Street, The Wilsons had dug out some canals and watermelon rinds, and during the hot spell, the patch of ground was allowed to go to weeds, but at a short time the children discovered something more enchanting growing there.

Recently they summoned their mother for the task. The discarded seeds, carelessly flung off, had taken

One of the most important items to farmer-purchasers is the means to get repair parts, as most machines built to date will break down and need repairs. These organizations are stocking repair parts for their machines and plan to offer sudden service to their customers.

Each of these firms has two machines rolling, with two more for later delivery.

"These firms are behind, pushing progress; they're not on the rail" headed for Belle Glade, and have agreements from their respective factories to locate and make available others.

Too Late To Classify

By Russell Kay

In spite of all the screaming and hair-pulling over the proposal to construct a toll turnpike or freeway to move traffic rapidly and safely between Florida metropolitan areas, we might as well make up our minds that such highways will eventually be built.

If Florida is forward-looking and alert, she will begin now to prepare for such a future development by carefully studying and analyzing the progress of other states in direction, and giving serious consideration as to how the best interests of the state may be served in the securing of rights-of-way, type of construction and method of financing.

The day of haphazard, planless, will-the-wisp highway construction is rapidly drawing to a close. Progressive states know this and are thinking in terms of tomorrow rather than yesterday or today in squarely facing motor transportation problems.

Millions of tourists dollar come to Florida each year from New York, New Jersey, Pennsylvania and other states where motorists have learned the advantages of modern freeways, and the longer this state delays the construction of them the less attractive will become in the eyes of the motoring tourist.

While opposition to super-highways comes primarily from by-passed communities and business located along toll-free arteries, and is understandable, a study of the effects of free-ways in the state reveals that by-passed towns do not suffer as anticipated but find the removal of through traffic helpful both in reducing accidents and permitting easier, freer movement of local travel.

The Wall Street Journal recently made a survey of turnpikes and revealed some interesting information. Because of the greater use of the New Jersey turnpike than was anticipated, indications are that the bonds can be paid off in 20 years instead of 35. It was originally estimated that 8,000,000

cars would use the road annually; instead, it is carrying 15,000,000, and if it continues to increase a wider road will be necessary.

The accident record of the state has been sharply reduced by the removal of so much through traffic from congested areas and local parking situations are improved.

Within two years the main section of the world's longest and most modern express highway will be completed in New York State which will be known as the New York Thruway. 41 miles have already been completed, and when entire completed it will extend from New York City to Albany, Syracuse, Buffalo and on to the Pennsylvania state line.

Covering a total distance of 535 miles, it will permit travel safely and comfortably at 70 miles per hour with 100-foot forward vision at all points and an uninterrupted traffic flow for its entire record breaking length. It will be the most modern highway in existence, the best of the finest materials and life and minimum upkeep cost.

Does anyone believe that millions of motorists accustomed to traveling at 70 miles per hour without encountering an intersection, light school zone, business section, hospital area or a stop section for over 300 miles, the construction of them the less attractive will become in the eyes of the motoring tourist.

While opposition to super-highways comes primarily from by-passed communities and business located along toll-free arteries, and is understandable, a study of the effects of free-ways in the state reveals that by-passed towns do not suffer as anticipated but find the removal of through traffic helpful both in reducing accidents and permitting easier, freer movement of local travel.

The Wall Street Journal recently made a survey of turnpikes and revealed some interesting information. Because of the greater use of the New Jersey turnpike than was anticipated, indications are that the bonds can be paid off in 20 years instead of 35. It was originally estimated that 8,000,000

This is the most advanced highway engineering construction and land clearing can make. The pavement is 9-inch Portland cement concrete on a 12-inch granular base, designed to provide a tire-gripping, non-skid surface, making the road easy to see at night and in bad weather.

The New York Freeway Authority was empowered by law to sell bonds and other securities in the amount of \$500,000,000 to finance acquisition of rights-of-way, construction and operational costs.

This will be returned at no cost to taxpayers from tolls and a tariff of 1 cent per mile for passenger cars and 3.3 cents per mile for trucks. Residents of the state wishing to do so will be permitted to purchase season tickets for use of the highway for the period of one year for \$10.00.

Governor Warren, Chairman McKethan and advocates of such highways for Florida are not nuts or dreamers—they are thinkers ahead and will be proven right.

Two new types of low-cost Government life insurance are available to eligible veterans of the U. S. Armed Forces who served anywhere in the world since the Korean Campaign started on June 27, 1950.

The first of these two types is a non-convertible five-year level premium term policy that may be renewed every five years at the premium rate for the then-attained age.

The second type is a special form of National Life Insurance, on either the term or permanent plan, that may be assigned to disabled veterans whose disabilities have been found to be service-connected. To qualify for the first type, term insurance only, veterans must have been ordered to active duty for 21 days or more; they must have served since June 27, 1950. They must apply within 120 days after discharge. No physical examination required.

To qualify for the second type, term or permanent plans, these veterans must have been discharged or released from service on or after April 25, 1951, and, they must be found to have a service-connected disability which would be compensable if 10 percent or more in degree. They must apply within one year after the VA finds their disability to be service-connected. (Contact your local Veterans' Service Officer.)

CITY COMMISSION

(Continued from Page One)

reported elsewhere in today's Herald were:

Adopted to reimburse Austin Richmond for \$424.47 expenses paid over and above the \$750 allowed for reimbursement for softball equipment this season. Mr. Richmond, who said that it had been necessary to buy bats, balls, pads, macks, and bases, said that next year the expenditure on the softball league should be considerably less.

Adopted a blanket liability insurance policy issued by the Indemnity Insurance Company of North America. The coverage provides up to \$25,000 payments for one person, up to \$50,000 payments to more than one person for claims of bodily injury and up to \$5,000 for property damage claims. The cost of the policy, \$1,570.79. The insurance will be effective Oct. 1.

Decided to license juke boxes and pinball machines by location, not transferable. This means that machines heretofore removable from one establishment to another, will not be covered in any except their licensed location.

Paid bills \$2,029.01 from the general fund and \$301.66 from the water department fund. Voted to allow city painter Fred Irvin, 229 Avenue A, to put up an awning at the rear of his shop, provided flame-proof canvas is used. (The shop is in the fire zone.)

Voted to hold in abeyance for two weeks a condemnation suit involving L. E. Griffin, Economy Market, 209-211 SW 5th Street. Griffin was previously granted a 60-day stay, because his property is in litigation, has now been ordered to appear at the next commission meeting to show cause why his condemnation proceedings should not be carried out.

Authorized the purchase of a Circular machine for drying the fire department's hose. Cost of the drying machine, \$815, will be deducted from the building fund for the fire station addition.

Approved plans to send Mayor Herman Glaze, and Clerk Frank Anderson to the Florida League of Municipalities annual convention in Tallahassee, Sept. 15-16-17, and to send Chief of Police Goodlett, Mayor Collins, and Herman Glaze to the Governor's Highway Safety Committee meeting in Daytona, Oct. 10-11.

Bought a Model Ordinance Service from the National Institute of Municipal Law Officers, Washington, D. C.

Authorized the City Clerk to advertise for an auditor for the coming year.

Confirmed the appointment of O. C. Lindsey as park attendant, effective Oct. 1; confirmed the transfer of Carl Williams from the fire department to the police department, Sept. 15; voted to pay Garfield Williams, park attendant, \$5 a month more, to bring his salary into line with other civil service salaries; confirmed the appointment of Charles Grater as a grade 3 fireman; confirmed the appointments of Eddie Robinson, Roy Cole, Clyde Wooten, and Herman Greer as garbage pickup men in the Building and Sanitation Department, effective Oct. 1.

Approved numerous beer and wine license renewal applications, but denied two, Russell Smith, was refused permission to move his store to a new location because the proposed location was too close to a church.

Lovey Lee Copeland, a Negro, 105 SW 5th Street, was refused a beer and wine license because Chief of Police Goodlett testified, she had been involved in bootlegging.

Retail beer and wine applications from new operators in new locations were approved for Basile Mae Anderson, 507 SW Ave. B, and W. C. Gooden, 533 SW Ave. D Place.

Other renewals were approved for the following beer dealers: Redwing Super Market, package only, Samuel J. Flint, 48 West Ave. A; Earl Williams, American Legion Post 202, 116 SW 8th Street; American Legion Post 20, SW Ave. D, Beer and wine: Willie Myers, 550 SW 5th St.; Mildred Hill, 425 SW 5th St.; Nathaniel Colbert, 400 SW 3rd St.; Floretta Evans, 256 SW 5th St.; Cornice Stroud, 532 SW Ave. B Place; Frances D. Rutledge, 310 SW 6th St.; and Shelley Connell, 708 NW 12th St.; wholesale beer and wine: Liquor Liquors, were granted Belle Glade BPOE 1716, 300 SE Ave. R, and Frances D. Rutledge, 310 SW 6th St.

Two beer and wine licenses were granted subject to conformation with sanitary requirements. Everglades Lodge 1323, BPOE, 321 SW 5th St.; and Ramon's Beer Garden, 121 SW 5th Street.

MRS. VAN HORN TO BE HONORED IN CEREMONY

Mrs. Una Van Horn, long-time resident of Belle Glade will receive special honors tomorrow at the Belle Glade 100th anniversary of Adventist Sabbath schools.

With 57 years of continuous Sabbath school membership, Mrs. Van Horn tops the list of long-time Sabbath school members in the local church. She first enrolled in 1895 at Lake View, Ohio and has been attending Sabbath school Bible classes ever since.

F. D. Buchmiller, pastor, who will present the honors as part of the centennial program, will reveal that there are now 17,773 Sabbath schools with a world membership of 1,034,060. Since the first Sabbath school was organized in Rochester, N. Y., in 1852, more than \$3,000,000 has been contributed through this branch of the church to promote the spread of the gospel overseas.

YOUNG BAPTISTS PARTY AT CHURCH

Monday night the Young People's Class of the First Baptist Church held a supper for the incoming intermediates on Promotion Day next Sunday.

Owing to the deluge, the party, originally planned as a picnic at the Paradise Hotel, was given in the church. In attendance were Mr. and Mrs. George Scarborough, Mr. and Mrs. William Thibault, Mr. and Mrs. D. B. Mathis, Bette Anne Markham, Lila Humphries, Carolyn Earwood, Mary Lou Pitts, Frances McAllister, Eunice McAllister, Jackie Miller, Jerry Street, Adrian Hawley, Alvin Garrett, Bobby Kent, Walter Schlechter, Jr., W. O. Prescott, Nelson Netten, Barbara Robinson, Ronald Jones, Laverne Gilson, Kenneth Edens, and Belle Lou and Bob Archer.

HUGE CAKE TO BE SHOWN SATURDAY, EATEN SUNDAY

This Sunday at 1 p. m. Bill Pierce will serve the biggest and sweetest cake ever baked in Belle Glade to numerous friends who will gather on the porch of his ramble plant to celebrate the birthday of his wife, Mrs. Annalee Pierce.

The cake, which will be baked by Belle Glade Bakery, will be on display in the bakery window, all day Saturday. Bakery manager Charles Henry says it will weigh an estimated 50 pounds, and calculate to serve 200 people.

Florida's forest fire record was the worst in the nation last year.

"It's built like the big ones"

—that's why a GMC pickup will last longer, cost less to maintain!

WHEN the big GMC over-the-highway truck and the small pickup, shown above, are loaded to capacity—there's 30,000 pounds difference in their weights.

Yet they are alike in a lot of important ways that make GMC light trucks tops in all-around service!

For GMC is the ONLY pickup truck with all five of the important features which most manufacturers reserve for their bigger, "heavy duty" vehicles.

They are: Tocco-Hardened crankshafts, full-floating piston pins, airplane-type main and rod bearings, rifle-drilled connecting rods and full-pressure lubrication all the way to the piston pins—things that increase the life of your truck.

But that's not all. We'll be glad to demonstrate how other features like "pillow action" springs and recirculating ball-bearing steering give GMC's a real "passenger-car ride." Come in and see firsthand the fine features that make GMC today's top buy in pickup, panel and stake trucks!

SOUTH BAY BEAN CITY LAKE HARBOR

Mark Challenin returned from Hamilton, N. Y. with several truck loads of Negro farm labor who have been engaged in the snap bean harvest in New York during the summer.

T. L. Dean left Friday for New York, called there by the illness of his son, James B. Dean.

Mr. and Mrs. L. B. Keene have returned from Arcadia, where they were called by the death of his father, William Walter Keene. Funeral services were held on Wednesday.

Mrs. Cora Marlowe is remodeling her former store space into a living quarters, which will make three apartments on the east side of the building, with her own living quarters and the grocery store on the other side.

Rev. James N. Purcell conducted devotionals at the first Friday assembly of pupils at the South Bay School.

Mr. and Mrs. H. O. Mitchell left Hamilton, N. Y. where they operate a summer seasonal grocery for Sherman, Texas the last of the week. They plan to visit relatives in Texas for several weeks before returning home.

Mr. and Mrs. Mark Challenin left the first of the week on a pleasure tour of Texas, Louisiana, and intervening points. Her brother, Mrs. George A. Thompson of Swainsboro, Ga. will remain with the children here in their absence.

Marvin McDonald of Georgia is visiting his uncle, John L. Evans in Belle Glade.

E. Y. Smith of Lake Harbor and brother Wilmer Smith of West Palm Beach are visiting their parents in Tallahassee for a few days.

E. W. McLeod of South Shore Plantation has received word that his son Richard has been made staff sergeant. He is stationed at Mitchell Field, N. Y. with the Air Forces and expects to be home in January.

Sgt. Willie Warren, recently returned from Goose Bay, Labrador has been released from

active service and returned to his home in South Bay.

Russell Fisher is a patient at Belle Glade Memorial Hospital suffering from virus pneumonia.

Mr. and Mrs. Alfred Vadasz, Karen and Karl, and Mrs. B. M. Fender visited Mrs. Stanley Bode in Fort Myers Sunday.

Ronnie Bowen, Marsha Walker and Judy Knight are enrolled in the piano class, taking lessons once a week in Belle Glade.

Mrs. T. L. Driggers and daughter-in-law, Mrs. Jesse Driggers, are making a business trip to Cocoa Friday.

Mrs. C. C. Hutson of West Palm Beach spent a few days last week with her mother, Mrs. Laura Crow, and sister, Mrs. Mead Willis and family.

Mr. and Mrs. J. B. Grant of Arcadia visited relatives in Lake Harbor Sunday and looked after business matters.

Mr. and Mrs. Frank Robertson are expecting their son, Mackey, home on leave from the Naval Base at Chicago this week.

Mr. J. S. Scoggins of Lake Harbor who has been ill for some weeks is reported slowly improving.

Mr. and Mrs. O. H. Martin are rejoicing over the birth of two grandchildren last week. Mr. and Mrs. Hollis Martin of West Clewiston have a baby girl, Patricia Diane, born on September 15, and Mr. and Mrs. W. F. Martin of South Bay have a new son, Paul Houston, born on September 16 at the Belle Glade Memorial Hospital.

Mrs. L. O. Ratley is looking forward to a visit from her children early in October, Cpl. Mrs. Curtis Williams from Fort Bragg, and Mr. and Mrs. Edwin Dorsey and family from Texas.

NEW SCHOOL ZONE SET IN SOUTH BAY

The State Road Department paint crew was in South Bay Monday morning to paint the road signs on SR 25 which is also U. S. Highway 27 and to mark the School Zone established by the SRD in accordance with a request by the South Bay City Council.

The new school zone extends from a point opposite the Royal's Motel south to a point below the South Bay Restaurant with stop signs on the County Road and SR 80 intersections. The work crew also left portable "School Signs" to be placed during the passing of school children to and from school across the highway at this dangerous intersection.

Agitation for this safety measure was started last spring by Safety Chairman Mrs. I. P. Roberts of the Home Demonstration Club, assisted by the Parent Teachers Association and Lions Club. The City Council cooperated by securing the necessary action by the State Road Department.

The School Boy Patrol is fully organized under direction of Chief of Police R. C. White with 18 boys, all of whom have been provided with necessary badges, belts, rain coats, and hats. Two patrol boys, stationed at the intersection of Bales Ave. and Palm Beach Road, will insure that school children cross in safety. Two will also now be stationed at the intersection of County Road and U. S. Highway 27.

At the request of the Negro Principal, a Negro school boy patrol is being organized for that school under direction of Chief White. Portable school signs have been ordered for that school as well as new signs for the white school and the Negro patrol will be provided with similar equipment to that provided for the white boys' patrol.

LAKE HARBOR WSCS PLAN JOINT MEET

The Woman's Society of Christian Service of the Lake Harbor Community Methodist Church met at the home of Mrs. A. B. Mathis Thursday evening in a short business session, during which plans were completed for a joint program session Thursday, Sept. 25, with the Belle Glade WSCS at the Lake Harbor Church.

Refreshments were served by the hostess to Mrs. W. M. Lee, Mrs. Frank Robertson, Mrs. Mary Royal, Mrs. C. H. McClure, Mrs. E. W. Weaver, Mrs. E. McKinley, Mrs. Nicola D. Stefano, Mrs. E. J. Carlton, Mrs. H. D. Merriam.

**DRIGGERS ATTEND
NEPHEW'S WEDDING**

Mr. and Mrs. Terry L. Driggers, Miss Ann Driggers, and Mrs. Jesse Driggers have returned

from Winter Garden, where they attended the wedding of Mrs. Driggers' nephew, Rev. David Land, pastor of the Church of God at Punta Gorda, and Miss Thelma Butler of Orlando.

SOUTH BAY BAPTIST WIN BANNER

The South Bay delegation to the Training Union Association Mass Meeting at Haverhill Baptist Church Monday evening won the attendance banner.

They were Rev. and Mrs. James N. Purcell, Billie, Charles Ray and Jimmy Purcell, Miss Hazel Prevette, Miss June Ratson, Miss Dorothy Butler, Yarrowburgh, Milton Clinard, Glen Dasher and M. J. Hardy.

ELECTION BOARD NAMED BY SOUTH BAY COUNCIL

The deadline for filing for the annual municipal election to elect three councilmen for the City of South Bay passed Saturday with seven candidates in the field. They include the three incumbents, Mayor M. J. Hardy, Melvin Herring, and James C. Sumner, also S. J. Fisher, F. W. Kelley, H. L. Delaney and J. L. Brown.

The council met in an adjourned session Saturday afternoon to adopt the official ballot for the election which will be held on October 7 at the City Hall. Balloting will be on a voting machine.

According to Mrs. G. J. Barstow, City Clerk, the election board consists of herself as clerk and Mrs. H. C. Willis, alternate clerk, and inspectors Mrs. A. B. Barnes, Mrs. Alice Lamoureux, C. A. Whitman, Sr. Mrs. Imogene Barnes is alternate inspector, and H. C. White, deputy.

An ordinance was adopted whereby persons who are registered but unable to appear at the polls on election day either because of absence from the city or physical disability to vote entrance, providing the votes are filed at the City Hall on or before the day preceding the election.

According to Mrs. Barstow, W. E. Keen, West Palm Beach, was successful low bidder among three who wanted to make the annual audit of city and waterworks books for the fiscal year ending Sept. 30. The Keen bid was for \$330. Mrs. Barstow said. Other bids were submitted by W. B. Rhodes and W. C. Bamford.

The Council elected these directors for the County Resources Development Board: Ted Danols, Lake Harbor, two years; and John L. Evans, Bean City, three years. S. J. Fisher, South Bay, still has one year to serve. A beer and wine license was

GARDEN CENTER OPEN EVERY MONDAY P. M.

The Belle Glade Garden Center, sponsored by the garden club, is open from 2 to 4 p. m. each Monday afternoon at the Community Clubhouse.

This is a service given to the public by members of the club. Topics of interest include ques-

Starting to build? Then insure today.

Anybody who starts to build anything should get "builders risk" insurance the day he starts.

It protects you against loss of a partially built building by fire or lightning. A workman's torch, a loiterer's cigarette, a brush fire or a bolt of lightning may wipe you out before you even get started.

And, though you have a bona fide contractor who has provided for payment of employees' compensation, you should also have liability insurance to protect you against accidents to members of the public.

HARRIS Insurance Agency

Harris Bldg. Glade, Fla.
Dial 2210

tions on the planting, growth, pruning, and fertilization of plants in the Everglades; as well as on the arrangement and spacing of flowers and foliage. The club has a good collection of reference books.

Each Monday a door prize will be awarded the visitor holding the lucky number. Next Monday a lovely red dracaena plant will be given away. A few plants will also be placed on sale each week.

The public is cordially invited.

BIG LIFT to Better Farming

Better farming, new methods and machines, better livestock, and improved marketing are helping bring about a new era of progress and prosperity in Dixie.

Rural telephone (they tripled in number since World War II in the area served by Southern Bell) are bringing a big lift to farm work and farm living. During the first eight months of this year, we installed more than 22,000 rural telephones.

We'll keep on putting them in as fast as we can—because we know how much they mean to property on the farm and in towns... and to a strong, well-fed America. More farm telephones also mean more valuable telephone service for everyone.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

Atlanta. The schedule of remaining games for this season is as follows:
Citadel (night) at Jacksonville Oct. 4
Clemson at Gainesville Oct. 11
Vanderbilt at Nashville Oct. 18
Georgia at Jacksonville Oct. 25
Auburn at Gainesville (Homecoming) Nov. 1
Tennessee at Knoxville Nov. 15
Miami at Gainesville Nov. 22
Kentucky at Gainesville Dec. 6

FLORIDA FLOOD CONTROL

(Continued from Page One)
Holland Congressmen Dwight Rogers, and Congressman Jim Haley of Saginaw, Speaker B. Elliott, and Speaker-elect Farris Bryant participated.

Senator Morrow of Palm Beach County was joined by about a dozen Florida Senators and ten or more members of the House in pledges of unstinting support of the water control project.

Don McCarty, governor-elect, spoke briefly at the luncheon; and during the legislative forum in favor of the various state projects and particularly the Central and South Florida project which is now under way.

Ralph Kurtz and Ruth Wedgwood, Timmons were appointed by Chairman Luther Jones on the resolutions committee as Chairman and member, and Bob Creech made a very impressive appeal to Engineers to "be ready to spend whatever money is made available practically and immediately."

Dr. R. V. Allison was introduced to the meeting as an original advocate of soil conservation and water control.

George Wedgworth accompanied his mother: Harry Vaughn and Bill Owens from Cleveland, and Lamar Allen represented the Resources Development Board.

"The two important accomplishments," according to Luther Jones, Committee Chairman, "were the renewing and substantial support of central, west, and northern Florida interest in the all-Florida programs, and the Corps of Engineers' acceptance of the urgent necessity for acceleration of the program."

"For a Committee meeting the attendance of public officials and business men of the State is very satisfying," stated Luther Jones.

Harold Cole, General Manager of the State Chamber, and Governor Carlton, its President, were present, as were fourteen of the Directors, and all expressed satisfaction with the accomplishment of the meeting.

The Flood and Water Control Committee of the Palm Beach County Resources Board was well represented, as those attending from Palm Beach and the Glades are members of that Committee.

DR. JONES NAMED HEAD COUNTY CHIROPRACTORS

Dr. L. S. Jones of this city has been named president of the Palm Beach County Chiropractic Society. At the first fall meeting of the Society at the Flotilla Club, in West Palm Beach, Dr. Jones, and other officers were elected as follows:

Dr. T. E. Jackson, West Palm Beach, vice president; Dr. H. Lockart, Delray Beach, secretary-treasurer; and L. T. Owen, Jr., West Palm Beach, public relations chairman.

Dr. Jones, well-known in Belle Glade, has practiced here for a number of years.

He announces that the State Convention of Chiropractors will be held in St. Petersburg Oct. 9-10-11. All chiropractors will attend in order to conform with the State educational requirements for renewal of licenses. The next meeting of the County Chiropractic Society will be held Oct. 16 at the Flotilla Club.

The Gardener's Corner

ANNUAL FLOWERS BEAUTIFY THE GARDEN

Dr. G. R. Townsend
Residents of Belle Glade have an unusual opportunity to beautify their premises by growing annual flowering plants. There is no season of the year when some kind of flower will not grow successfully. However, it is during the late winter and spring months that flowers and annuals are at their best in the Glades. Since a garden seldom is better than the soil on which it is grown and the care that receives, the following information may prove useful to local gardeners. It has developed as the result of several years of experience with local plant diseases, insect and soil problems, and through the trial of a considerable number of flower stocks from the Ferry Morse Seed Co.

The garden site should be chosen with several thoughts in mind. It should have adequate drainage for the quick runoff of heavy rains, but also should not be too high and dry. It will be very helpful to locate the site within reach of a hose outlet so that water can be used if necessary. Annuals grow best and have more beautiful flowers when the garden is located in a site exposed to the full sun all day. The protection afforded by hedges and buildings to the west and north sides of the garden site may be helpful when cold winds blow.

Muck soil is excellent for flowers because of its high nitrogen content and the capacity to hold large quantities of water. However, if the muck shows signs of having been burned or contains much lime, it will be difficult to grow anything without considerable treatment for minor element deficiencies. The soil for a good garden should be a heavy black muck, but has been thoroughly worked to a depth of 8 to 10 inches for several weeks before it is planted. It should not be in a lumpy condition, but should be loose and friable. Muck is too wet to work and plant when water can be squeezed from a ball of soil pressed in the hand. It is too dry if a similar ball of soil does not hold together after pressing.

Some fertilizer should be put in the garden before seeds are sown, or plants set out. A good practice would be to apply a 4-8-16 fertilizer mixture containing supplemental amounts of copper, manganese and zinc. An application of such a mixture at the rate of 2 pounds per 100 sq. ft. of garden area should be broadcast and worked into the soil. This should be adequate for starting the garden, but more fertilizer may be applied occasionally after the plants are growing. This should be scattered between the rows of plants and lightly raked or watered. Not more than one pound of fertilizer per 50 sq. ft. of row should be applied in this way. Too much fertilizer can damage the roots or make the plants too succulent.

Seeds of all kinds gradually lose their ability to grow. Some kinds may do this in less than a year, while others may survive for several seasons. High temperature and humidity are known to hasten the deterioration of seeds. For success with local gardens, it therefore is best to secure seed that is fresh and has not been stored where the temperature and humidity have been high. Treatment of the seed with a fungicidal dust will prevent the loss of seed and save seedlings from damping-off diseases. A good practice is to dust the seed in a small pocket with about a quarter teaspoonful of Spergon, a fungicide especially useful for this purpose.

BAPTISTS TO HOLD PROMOTION DAY

Sunday, September 28, is Promotion Day in the First Baptist Church of Belle Glade. All departments of the Sunday School will meet as usual at 9:45 a. m., and at 10:30 they will assemble in the auditorium. A special feature will be the recognition of young mothers and their babies under one year of age. In two years babyland, the Baptist nursery, has grown from a half dozen babies in a small single room to a three-room bungalow overflowing with thirty-four babies.

At 7:00 p. m. the Training Union departments will meet as usual. At 8:00 p. m. all will assemble in the auditorium where Promotion Day exercises will be a part of the evening service.

On Sunday, September 21, the church elected more than a hundred persons to the twelve, twelve offices throughout the church. The installation of these officers will be a part of the September 23 program.

cups. This will permit them to develop a better root system which will hold the soil together when the plants are transplanted to the garden. A starter solution should be used to water transplanted plants as it will reduce the tendency to wilt and start them growing sooner.

Such a solution can be made by dissolving three tablespoonful of Hy-Gro in two gallons of water. A cupful of this applied around each transplanted seedling will be helpful. The advantage of transplanting is that the garden area can be kept in use over a longer period of time, but the time from seeding to flower production will not be shorter.

(Continued Next Week)

Activities of Glades Scouts

Mrs. W. C. Allen, past president of the American Legion Auxiliary, who is an authority on the flag, attended the meeting of Girl Scout Troop 1 last Friday afternoon at the Scout Hut.

As previously announced badges were to be awarded to the girls who had completed their rank work. Those girls not being present, Court of Awards was postponed until a later date.

Owing to the repair work being done on the Scout Hut, it was decided not to have any more meetings until Girl Scout Roundup time. At that time all troops will be organized and start regular meetings.

Women planning to attend the training course on Camping and Outdoor Activities must contact Mrs. A. B. McCormick at 2830 by Monday, September 22.

SEEING SNAKES TROUBLES CHOSEN RESIDENTS

"It's getting monotonous" is the way a Chosen householder sums up the recent adoption of his house by half a dozen tiny snakes. A steadfast, hardworking man of irreproachable sobriety, he says that in the past week, his wife has discovered six different reptiles at the rate of about one a day.

The first of the little visitors turned up on a closed screen porch a second made his appearance in the kitchen; a third was found lounging outside the kitchen window, under the jalousie; and two others have turned up on the porch. But the visitation that sent the good lady of the house into a screaming fit came when she lifted a newspaper off a living room easy chair Monday and discovered a

snake curled up peacefully underneath.

At a loss to explain the entry of the creatures into a house which is weatherlight, and so compactly constructed that nary a roach has ever been seen there, the householder shakes his head.

"It's getting awful monotonous," he repeats, adding that Experiment Station experts are unable to identify the snakes. All six have been about six to twelve inches in length, and all of the same café au lait color, with darker brown markings.

Five additional Street Lights are being installed in Belle Glade this week by the Florida Power & Light Company. These lights, ordered by the City Commission, are of the modern up-sweep overhead bracket type. Two are located on SE 33d Street South of Avenue F and three are in the area of SW 2nd Street. This makes a total of 219 street lights installed in Belle Glade.

HOW MUCH FUEL do you get from a GALLON OF GAS?

Buick

Power Steering now available on Super as well as Roadmaster. Optional at extra cost.

"MILES PER GALLON" is something everyone talks about—and Buick owners take pride in telling us that they're doing OK on this score.

But the kind of miles is important too. The real pay-off you get when you own a Buick is in what happens while you're turning gas into power.

Every drop of gas sets off a tiny tornado of compacted energy in Buick's Fireball 8 Engine.

You swoop from a standing start to any speed the law or good sense permits with effortless smoothness, thanks to Dynaflow Drive.*

You soar over the road with magnificent leanness—buoyed by big soft coil springs on every wheel—coddled by a dozen other features which make up Buick's million dollar ride.

The car holds direction like an airliner on the beam. You snug into turns with sure-footed poise—ease your grip on the steering wheel and feel the car carve a straight course again like a compass points to the pole.

This is travel as you've always hoped to find it—relaxed, carefree, luxurious, happy—while you leave the miles behind.

Yes indeed—life's different in a Buick. How different you should find out firsthand.

How about letting us give you a sample—any day you say?
Equipment, accessories, trim and model are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series.

SURE IS TRUE FOR '52—
WHEN BETTER AUTOMOBILES ARE BUILT
